

Dear Sirs, The XM Instant Traffic and weather station is extremely useful for me. My job requires me to travel a 2 hr radius around the Dallas/Fort Worth metroplex. Traffic conditions change raipdly here. My time is short and I must meet with my patients, their doctors and physical therapist, as well as do job site evaluaion visits. My punctuality is pertinent to my job. Traffice conditions could cause me to rescheudule and thus increase the cost of returning a Federal worker to the work force. Please leave this station on the air for greater assistance to people to utilize for their saving time, saving fuel and safety. Thanks for considering my request to keep XM Instant Traffic & Weather on the air. Sincerely, Carla Frisbee, RN
